

NORTHERN IRELAND OCCUPATIONAL HEALTH REQUIREMENTS

This section applies to candidates being placed in HSC Northern Ireland sites and should be completed in addition to the standard Pre-Placement Health Assessment Form.

Immunisation and Screening Requirements

Healthcare workers with patient contact are required to provide documented evidence of immunity, vaccination, or screening status for the following:

Requirement	Evidence Provided
Tetanus	☐
Diphtheria	☐
Polio	☐
Measles, Mumps and Rubella (MMR)	☐
Tuberculosis (TB/BCG)	☐
Seasonal Influenza	☐
Varicella (Chickenpox)	☐

Exposure Prone Procedures (EPP)

Candidates undertaking Exposure Prone Procedures (EPP) must provide occupational health evidence of the following blood-borne virus screening results:

Required Screening	Evidence Provided
Hepatitis B	☐
Hepatitis C	☐
HIV	☐

All blood-borne virus screening results must be obtained and verified in accordance with current UK occupational health guidance and, where applicable, from identity-validated samples.

Declaration

I confirm that the information and supporting documentation supplied in relation to the above immunisation and screening requirements are true and accurate to the best of my knowledge.
